ABOUT US

TEKA Plastic Packaging Sdn Bhd ventured into the plastic injection profession in 2009, not just as a business, but with a mission to become an environmentally responsible manufacturer. By understanding the concept of consumer waste and its impact on the environment, TEKA is committed to make plastic containers with sustainability that are recyclable, durable & reusable for many times despite them being “disposable containers”.

With vast experience in manufacturing and export, TEKA produces a wide range of container products ranging from different shapes and sizes that cater to the essential needs of consumers and food businesses. To ensure that the team continues to provide excellent service and products to customers, TEKA adheres strictly to professional industrial standards and in-house quality and food safety policies.
